

REMARKS

Claims 17-21 remain in this application. Claims 40-44 are new.

The Office Action required restriction of the application to one of two groups quoted below:

Group I: Claims 1-16 and 33-39, drawn to receiving and producing an ingoing downconverted signal, classified in class 455, subclass 73.

Group II: Claims 17-21, drawn to receiving and downconverting low frequency signals, classified in class 455, subclass 309.

In response to the restriction requirement, the claims in Group II are elected, without traverse. The claims in Group I are withdrawn and canceled. New claims 40-44 are added with the intent of belonging to the Group II classification. These are method claims that have similar elements to those of claims 17-21 which are allowed.
